

Bead Crochet Bangle

Instructor: Randi Samuels

Level: All levels

Class Date: Saturday, Feb 20, 1pm - 5pm

Over the years, many of you have asked for a class in Bead Crochet. Here it is! Randi has developed her own tool (the "Crochet Bead Rope Starter Jig") to make it much easier to crochet the first few rows, which are usually the hardest to get through, so you can be creating beaded bangles in no time! Please Note: students should take lunch before class begins - there is no break in this class!

Supply List

Class Kit Fee of \$22 includes Wire Jig, Seed Beads (size 6), Bead Caps, ceramic spacers, Thread, Crochet Hook, Needles

You will also need the following to complete the project (many options available at shop):
Focal Bead (ie: lampwork bead) with hole to fit multiple passes of thread

Tools List

None - all tools are supplied in student kit
Please bring small scissors for thread if you have them

NOTE: If you have previously purchased a wood Jig from the instructor or Beaded Bliss, please bring it to use instead of the wire jig (you will get \$3 off kit price)
